Notice of Allowance

This is the Notice of Allowance for application number 10/686,733 Touch Panel Holder Frame, Spacer Member and Display Device, filed on 10/17/03. Claims 1-6, 8 and 11-14 are allowed.

Examiner's Comment/ Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "plurality of pawls on the second positioning enclosure" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Now the drawings only show one that is visible.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Notice of Allowance to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach a plurality of holding pawl sections provided on an inner surface of the second positioning enclosure at positions remote from the spacer section that engage the outer periphery of the touch panel and retain the touch panel within the second positioning enclosure in combination with a first and second positioning enclosure, the first positioning enclosure engaging a display device body along a portion of the plate thickness to surround the outer periphery of the display screen and wherein the second positioning enclosure engages the touch panel along a portion of the plate thickness of the touch panel to surround the outer periphery of the touch panel.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
